KIRKLAND, Wash. (February 2020) – Stop by the Miami International Boat Show this Presidents' Day weekend (February 13th – 17th) to check out Icom's current lineup of marine radios. Look for us at the Miami Marine Stadium, booth C726.

Icom is proud to release the new and much-anticipated Single Side Band (SSB) radio, the **M803**. It is the long-range digital communications radio for blue water cruisers looking to reach both marine and ham frequencies at wide distances, with the Class E DSC MF/HF certification. Features include a distress call button, dedicated DSC scanning, GPS, two-minute instant replay audio function, and HF email capabilities. The M803 also includes an advanced RF direct sample system that improves higher receiver sensitivity and higher quality audio. Currently, there are no competing devices on the market, so take advantage of the new M803 to complete your marine communications needs.

Also on display will be some of our popular and powerful handheld radios, like our favored **M37** handheld VHF radio. It's compact and easy to grip, and has a large LCD display. This radio also has important features like 6W of RF output power and 700 mW of audio output, Float'n Flash, and AquaQuake. Also available to check out at the show will be our newest handheld, the **M85UL**, which is Intrinsically Safe for hazardous environments. It is waterproof and has 100 programmable land mobile channels in addition to VHF marine channels. It also features a Man Overboard alarm and has Man Down and Lone Worker functions.

AIR. LAND. SEA.

The **Miami International Boat Show** is one of the most widely-attended and prominent boat shows in the world. There will be over 1,400 boats and yachts present at the Miami Marine Stadium, attracting nearly 100,000 people. This year's show promises an "experience like no other where you can shop the latest models in both power and sail, while experiencing firsthand what the boating lifestyle is all about."

Icom is known for their legendary durability, quality, dependability, and ease of use. Many of Icom's iconic marine radios will be on display during the show, so you won't want to miss a chance to see our ever-expanding marine product line. Visit our booth and see why boating enthusiasts choose Icom.

BRING IT ON.
